NISTALA MARKANDEYULU

SOFTWARE ENGINEER

Markandeyulu.nistala@gmail.com

SUMMARY

Results-driven iOS Developer with 4.9 years of experience building scalable, high-performance mobile applications using Swift, SwiftUI, and Combine. Strong expertise in MVVM architecture, REST API integration, BLE connectivity, push notification lifecycle handling, and Core Data persistence. Experienced in delivering production-grade applications in Automotive and Mobility domains, collaborating in Agile environments, and ensuring App Store compliance.

PROFESSIONAL EXPERIENCE

Innominds Software Pvt. Ltd., Hyderabad - iOS Application Developer (November 2024 – Present, 2 years)

- Developing scalable, high-performance iOS features for Royal Enfield's Flying Flea application using SwiftUI, Combine, and MVVM architecture.
- Implementing pixel-perfect UI designs with SwiftUI and building reusable, modular UI components to ensure design consistency and maintainability.
- Managing advanced push notification workflows across foreground, background, and terminated states using Firebase Cloud Messaging (FCM) and Salesforce Marketing Cloud (SFMC).
- Architecting a centralized custom alert management system using enum-driven logic to prevent alert overlap and enforce priority-based error handling.
- Integrating BLE (Bluetooth Low Energy) connectivity to enable real-time vehicle dashboard updates, device scanning, and connection management.
- Developing a robust network monitoring solution using NWPathMonitor and Combine to manage application-wide connectivity states.
- Implementing Core Data-based persistence for notification history with pagination and optimized fetch performance.
- Leveraging AI/LLM-powered development tools such as Cursor, GitHub Copilot, and Claude to accelerate code generation, refactoring, debugging, documentation, and test development.
- Enforcing coding standards through SwiftLint compliance and performing modular refactoring to enhance code quality and maintainability.
- Collaborating with backend, QA, and design teams within Agile sprint cycles using Jira and Git-based version control workflows.

Colour Moon Technologies Pvt. Ltd., Visakhapatnam - iOS Application Developer (October 2021 – June 2024, 2 years 9 months)

- Developed and maintained multiple production-grade iOS applications using Swift (UIKit) and SwiftUI for iPhone and iPad platforms.
- Implemented scalable architectures for medium-scale applications using MVC and MVVM patterns to enhance code maintainability and reusability.
- Delivered pixel-perfect UI implementations using Auto Layout, SwiftUI, and reusable custom UI components.
- Integrated RESTful APIs using URLSession and Alamofire with Codable-based model parsing for efficient networking and structured data handling.
- Incorporated third-party SDKs including Google Maps, Facebook SDK, and payment gateway integrations to extend application functionality.
- Implemented push notification services and cloud messaging solutions to enable real-time user engagement and updates.

- Resolved compatibility and performance issues across multiple iOS versions and diverse device screen sizes.
- Managed version control workflows using Git, including branching strategies, merging, and conflict resolution, while collaborating with cross-functional teams.
- Applied Agile methodologies using Jira for sprint planning, task tracking, and defect management.
- Managed the complete App Store release lifecycle, including certificate handling, provisioning profiles, TestFlight distribution, and App Store compliance.
- Contributed to performance optimization, debugging, and crash analysis to improve overall application stability and reliability.

PROJECTS

Flying Flea (Royal Enfield Electric Connected Vehicle)

FOOD APPLICATIONS :
Tizola :
AppStoreLink : https://apps.apple.com/ag/app/tizola/id1580384001
Homza Cart :
AppStoreLink : https://apps.apple.com/in/app/homza-cart/id6469615165
Food Ride :
AppStoreLink : https://apps.apple.com/in/app/foodride/id6448753702

TECHNICAL SKILLS

Languages : Swift
Frameworks : SwiftUI, UIKit, Combine, Core Data, Core Animation
Architecture : MVC, MVVM
Networking : REST APIs, URLSession, Alamofire
Push Notifications : Firebase Cloud Messaging (FCM)
Connectivity : BLE (Bluetooth Low Energy), NWPathMonitor
Database: Core Data, Realm
Tools : Xcode, Git, Jira, TestFlight
Practices : Agile, CI/CD, App Store Deployment

EDUCATION

Bachelor of Technology (B.Tech) in Mechanical Engineering
Avanthi Institute of Engineering and Technology, Visakhapatnam, Andhra Pradesh
2019

Intermediate (MPC)
Narayana College, Visakhapatnam, Andhra Pradesh
2015

Secondary School Education
Navodaya Model School, Palakonda, Andhra Pradesh
2013

ADDITIONAL INFORMATION

- **Languages:** English, Telugu.
